FLORENCE

SEWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

Highest Premium! Gold Medal!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

CHRISTMAS OLIVE-BRANCHES.

Scarlet berries set in gold,
Gold of childhood's tresses,
Blue-eyed darlings shyly proud,
Queens in lacen dresses!

Bare-armed elfies chorusing,
Sweet and shrill their trebles,
Half-defiant, half abashed,
Charming little rebels!

When our grandsires wassail kept,
In the times called olden,
Eyes were not a brighter blue,
Hair was not more golden.

Not a jewel in the throng,
Not a gem adorning,
Chubby little necks and arms,
Faces fresh as morning!

Stay—I'm wrong, for sapphires shine
In those fairy glances;
Purest pearls, red lips between,
Gleam forth amid the dances.

Dances! No starched minuet,
But a gay cotillon—
Sort of ceremonious romp,
Of polkas worth a million.

Where, midst bursts of laughter shrill,
Grace and fun are mingled,
To the cheeriest, sprightliest tune,
Piano ever jingled.

Joy to give our baby-flowers,
Is a pleasant duty,
If we wisely throw a gleam
Of sunshine on their beauty.

Check the buds—and flowers fail;
No flowers, why then no fruit:
Oh, may the God of good let grow
Our *seed* to lasting *root!*

A CIRCASSIAN HERO.

SKETCH OF A REMARKBLE MAN.

The struggle of the Circassians for freedom and independence is without a parallel in the history of the world. For centuries they withstood every invader, and for the last thirty years have, single-handed, resisted one Russian army after another, until at length, outnumbered, if not subdued, they have been compelled to yield up their country to swell the already overgrown dominions of the Czar.

Of the numerous heroes which this great contest developed, Schamyl, their last leader and prophet, was the most remarkable. He was born in 1797, and in his early youth was marked out from his playmates by reserve, curiousity, inflexibility of temper, and ambition. Solitary and alone, among the lofty and barren rocks of Himri—regarded as holy by the superstitions of the people, and which none other dared approach after sunset—he used to spend half the night buried in fanciful reveries. His naturally tender and delicate frame he strengthened by every kind of gymnastic exercise, and under the instructions of a revered teacher he gained an intimate acquaintance with Arabic, and acquired a passion for glorious deeds.

At an early age Schamyl joined the Murids (a body-guard) of Kasi Mullah, the first reputed prophet of the Circassians, who, like Mahomet, led his forces to battle with the banner of revolt in one hand and the Koran in the other.—After achieving a long course of victories by the most consummate strategy, as well as the most determined valor, Kasi Mullah was besciged in the stronghold of Himri. After a month of obstinate resistance, in which the besciegers suffered greatly, the place was taken, the prophet slain, and all his Murids, with one single exception, cut down.—This one was Schamyl, who, though wounded by a bullet and with a bayonet thrust in his side, escaped from the hands of his enemies to make the Caucausas ring with the glory of his name.

Hamlah Bey took the place of Kasi Mullah as prophet and general of the Caucasus, and Schamyl became one of his Murids. After a career as daring as that of his predecessor, the new leader perished by the sword of his own race. At the instigation of their father, in revenge for the death of several members of his own family, two sons of the Khan of the Avarians murdered Hamlah Bey, while praying in the mosque at Chansak. One of the brothers was slain by the Murids; the other escaped, and inflamed the Avarians against the followers of the prophet. Numbers of Murids were assassinated in the mosque, while the remainder took refuge in a neigboring tower. The surviving murderer, however, gave orders to set fire to the tower, and only two Murids escaped from the conflagration. One of these was Schamyl, who again vanished without leaving a trace behind him.

These two almost miraculous escapes gave him a greater prestige than many victories would have done. His followers and resources increased from day to day, and he soon became the acknowledged leader and prophet of the Caucasus. His private and public character, his hatred of the Russians, and his personal bravery, well fitted him for the position. His eloquence was such that in the language of a Circassian poet, "lightnings flash from his eyes, flowers fall from his lips." He succeeded, as none of his predecessors did, in uniting beneath his banner tribes who had been at feud for ages, and showed great wisdom by the way in which he organized his army. His Murids, a chosen body-guard, were one thousand in number, and no instance was ever known of one of them falling alive into the hands of the Russians.

After a variety of successes, however, this great leader was destined to meet with a most serious reverse—the details of which are thus stated by a recent writer:

"As Kasi Mullah had been beseiged in Himri, so Schamyl was blockaded in the fortress of Ackulko. Pursued by the Russian army, who were immensely superior to him in numbers, Schamyl determined to throw himself into this stronghold and there await the attack of his enemies. Ackulko is by nature remarkably well adapted to sustain a seige. Crowning a huge mass of rocks, it is protected one side by a precipice, which sheers almost perpendicularly 600 feet into the river Koissu. On the other side it is guarded by deep and dangerous ravines, intercepted by swift mountain currents. Schamyl, schooled by defeat under the former prophets, had rendered this position still stronger by art. After a spirited resistance of three months, in which the besciegers lost more than twice the total number of the beseiged, Ackulko was takan; but Schamyl, the object of the expedition, was neither among the slain nor the captured. Some few Circassians were still to be seen on the mountain peaks overhanging the citadel. After a while some deserters from their number came down to inform the Russians that Schamyl was above their heads, and intended to make his escape by letting himself down by ropes in the course of the night. The story was credited, and accordingly some soldiers were set to guard the spot indicated by the Circasssians as the place of the intended descent. At midnight a slight stir was heard. Two Lesghis came down the heights with cat-like activity. They seemed sent on before to reconoitre. Before long a third wrapped in a white cloak, such as Schamyl was in the habit of wearing, descended noiselessly from above, upon which the guards burst from their hiding places, and at once conducted the three Circassians as prisoners to the tent of the Grabbe, the Russian Commander-in-Chief. Here, however, it was soon discovered that they were mistaken in their man, and had not caught the prophet after all. On the instant that his enemies had left the preconcerted spot the true Schamyl descended silently from his eyrie, and made off in safety through the darkness."

On hearing of this third escape, the Circassians more than ever convinced of the divine nature of Schamyl's mission, flocked again by thousands to his standard. Our space, however, will not permit us to follow him in all his varied movements. Suffice it that by a number of rapid and simultaneous attacks he made himself master of most of the Russian forts in the Ruban line—invaded the territory of the Kumyks, a tribe in alliance with Russia, defeated them in detail, and bore home an immense amount of booty—nearly anihilated the army of Grabbe in the forests of Itchkeri—almost utterly destroyed another large army under Woronzoff, and forced from that Fablus of the Russians the declaration to the Czar that it was impossible to subjugate the Circassians at a single blow, that they must be gradually exhausted, and that time and patience were the only requisites for this course of policy. The emperor acquiesced, and Woronzoff at once sent his light troops to traverse the Caucasus, whilst with the rest of his forces he began to build a chain of forts around his unconquered enemies.

Schamyl's last great exploit took place in 1846. At the head of a body of horsemen he ran the gauntlet between two lines of forts; crossed two great rivers, thereby greatly endangering his retreat; and fell upon the lowlanders of Kabardet—a Circassian race subjects to Russia. This was an act of extraordinary boldness, for he might have been easily surrounded and annihilated by his enemies in the plains, owing to his great inferiority of numbers. Notwithstanding, his scheme was crowned with the most complete success. He laid waist the country, burnt its crops, and recrossed the Russian lines like lightning, with a large number of prisoners.

In 1850 Schamyl once more broke through Russian lines to punish the disobedience of deserting tribes. Yet, like Hannibal in the mountains of Brutti, his efforts grew daily weaker and weaker, for want of supplies, until Woronzoff had the triumph of seeing his policy well-nigh successful. Then came the Crimean war, during which the Circassians showed their weakness by taking no part in the struggle. They merely made use of it as a breathing space, well knowing that its termination would be the signal for renewed hostilities against them.

In this they were not mistaken. After a most desperate resistance, during which a famine added to the miseries of war, the Circassians have been at last compelled to yield to Russia. Schamyl, with some of his family, was starved out of a fort in which he had been surprised by his enemies, and, upon his capture, conveyed in secret to Moscow, where he is kept as a state prisoner. He is now nearly seventy years old. Tall, well-proportioned, of a stately carriage and handsome face, with a snowy beard that sweeps his breast, he is indeed the very ideal of a patriarch.

We conclude our sketch of this remarkable man with a terrible though characteristic story which is told of him:

In 1843 a deputation was sent to Schamyl by the tribes of the Great and Little Tchetchnia, who were surrounded and held possessed by the Russians. The deputies, four in number, were commissioned to ask for a reinforcement sufficient to drive the enemy from their country, or, failing this, that they might with his authority subject themselves to the Russian government. Schamyl had repeatedly sworn that the first person who talked to him of submission to the Giaours should die the death. The deputies, aware of this oath, were far from intending in person to urge their suit. Accordingly they determined, if possible, to bring the question before Schamyl through the medium of the Khanum, his mother. This woman had at that time more influence than any one else over her son. On their arival at Dargo their Konak, or international host, introduced them to the Khanum. Under the influence of bribes—to which indeed she seemed always to have been open—the mother undertook to break their request to her son. On the same evening she sought and gained an interview with Schamyl, although he was at the time under a heavy stress of business, being on the point of sending his Murids with inflammatory messages to the neutral Caucasian tribes. Their conversation lasted till midnight. None ever knew what actually passed between them; but when Hassim Mullah, the Konak, went next morning to learn from the Khanum the decision of Schamyl, he found her pale and in tears. "My son," she said, trembling, "does not himself dare to give me an answer. He has therefore gone to the mosque in order, with prayer and fasting, to learn Muhammed's will from his own lips." Schamyl had, indeed, shut himself up in the mosque, with the order that all the people of Dargo should wait in prayer around the building until he should come out again. Upon this the whole of the neighboring population flocked from their homes and surrounded the mosque with prayer and lamentation. Three days and three nights went by. Many of the suppliants sank exhausted from want of food and sleep, until at last the gates unfolded, and Schamyl come forth with features pale and swollen from fasting.

After a whispered message to the nearest Murid, he mounted upon the flat roof of the mosque, accompanied by several of his body guard. Before long the messenger came back with the Khanum whom he led to the prophet's side. Amidst the dead silence that ensued he turned to the people and said in a loud voice: "Inhabitants of Dargo, what I have to announce to you is terrible. The Tchetchenzes have sent a deputation to me seeking submission to the Giaour. Well aware of my oath, these messengers applied to my mother, who, weak woman that she was, consented to break their request to me. My attachment for her rendered me so bold that I undertook to ask the will of Muhammad himself, the favorite of Allah. He has at length deigned me an answer, but, oh! what a terrible one. By his orders, the first person who breathed to me the villanous wishes of the Tchetchenzes is to receive a hundred lashes. This person is my mother." The poor woman, on hearing her name thus mentioned, uttered a terrible cry, but Schamyl was unmoved. The Murids tore off her veil and bound her to a pillar, while the prophet himself caught up the lash to inflict the punishment. At the fifth blow the Khanum fell down dead; and Schamyl threw himself in an agony of sorrow at her feet. Suddenly, however, he sprang up and stood erect, and with eyes sparkling with joy cried: "God is God, and Muhammed is his prophet! In answer to my prayer, he now permits me to undergo the rest of the stripes which my mother owes him for her guilt." So saying, he smilingly threw off his upper garments and ordered two of his Murids to inflict upon him the rest of the lashes. They did so, and covered his body with ninety-five bleeding wheals without his stirring a muscle. After the last stroke he quietly resumed his garments, and then descended from the mosque among his horror-stricken people, asking, in a calm, collected voice, "Where are my mother's murderers, the deputies of the Tchetchenzes?" "Here! here!" a thousand cried in a breath; and, quick as thought, the unfortunate men were tossed from hand to hand until they lay cowering at the prophet's feet. No one doubted their death. The Murids stood waiting with drawn sabers. Schamyl, however, raised them with his own hand, saying, "Go in peace to your tribe, and tell them, in reply to their demand, all that you have heard and witnessed here." Need we add that no deputation was ever sent to Dargo on a like errand?

NITRO-GLYCERIN EXPLOSION.—Last evening about five o'clock a catastrophe occurred in South Bergen, N. J., which spread consternation throughout that extensive district, and carried dark and dismal woe to many a homestead. The details are calculated to chill the blood in the stoutest heart. So far as the particulars have been ascertained, it seems that the history of the awful calamity can be gleaned only from those who were eye witnesses at a distance, as well as those who had left the vicinity only a short time before the explosion. All the men in the immediate locality, with a solitary exception, were instantly killed, and it is through this man that the cause of the occurrence has transpired. The Newark and New York Railroad, which is approaching completion, runs through a locality in South Bergen, called Claremont, about a mile from the police station at Bergen, and crossing the dummy line at Bergen Point. At Claremont several shanties were constructed for the workmen, as well as a blacksmith shop. The work in this locality consisted chiefly in blasting rocks, for which purpose nitro-glycerine was used as a substitute for blasting powder. Last evening, at the hour already stated, one of the workmen named Thomas Burns, carried a bucket of this explosive material into the blacksmith shop for the purpose of heating it. Being of a resinous, gummy quality, it is necessary to reduce it to a liquid state before it is fit for use. Burns, it is stated, grasped a red hot iron, and with a view of expediting the process plunged it into the bucket, when in an instant the unfortunate man, with all the inmates of the building, were blown away, and of the house not a fragment remained. Some of the men around the shop shared the same fate, while at the same instant a shock like an earthquake shook every building within at least a mile and a half from the scene. Every house adjacent was damaged; three were completely shattered. The smithy was situated on Bergen street, near Grove and opposite was the grocery store of Sebastian Goenher, part of which was blown away. Another house, inhabited by Benjamin Kaiser and family, was partial destroyed. Two of the unfortunate men whose name swell the list of the dead were on the roof of a house putting on a tin roof, when they were carried away with the upper portion of the building. Perhaps the most correct idea of the dreadful effects of the explosion can be arrived at from the statements of those were at a distance. The drivers and conductors of the Jersey City and Bergen horse-cars describe the shock as alarming at the distance of a mile. In the depot the shock was felt to be similar to that produced by the discharge of a one hundred pounder in close proximity to the building. The conductor of a Hudson City car positively averred that the explosion must have occurred on his right hand side as he ascended the hill, which would fix the scene in West Hoboken, over three miles from the actual place. Every house in Monticello and Bolton avenues trembled, and in several situate within a few blocks of the smithy not a pane of glass was left in the windows. One gentleman whose house is over a mile distant from the spot, jumped out of bed, thinking the chimney had fallen in. The houses in the vicinity were damaged in proportion to their distance from the scene.—*N. Y. Herald, Nov.* 25.

TRUCKEE CANYON.

A correspondent of the San Francisco *Bulletin*, dating his letter at Truckee Canyon, and speaking of railroad matters says:

Between Dutch Flat and Crystal Peak eleven saw-mills are employed by the Central Pacific Railroad Company in cutting ties, bridge timber and track coverings to protect the road from snow. One of the largest of these mills is located in Summit Valley, and has a capacity of about 50,000 feet per day. The mills are generally run night and day. The average capacity is about thirty thousand. The railroad company pays the millmen from $11 50 to $12 50 per thousand for the lumber. The operating expenses are from $8 50 to $9 50 per thousand; the profits therefore are from $3 to $4 upon each thousand. A good saw-mill costs from $7,000 to $10,000. I believe nearly all of the country lying between the eastern base of the Sierras and the western base of the Rocky Mountains is destitute of timber, and the stores of the former must be the chief source of supply for railroad purposes and for the erection of the many shingled shanty towns that will spring up with the locomotive's progress eastward.

The town of Truckee, or Coburn's Station, is one of these hasty gatherings of ephemeral structures. It contains 75 or 80 houses, chiefly saloons variety stores and hotels. I was in the town on Sunday, and everybody appeared to be lying back in chairs in front of the stores. I think each was in a prayerful frame of mind—praying for a dog or street fight—but no one seemed industrious or enterprising enough to start one. There was plenty of fighting material at hand, too, in the shape of bull pups and gamblers, with countenances suggestive of all that was riotous and unholy. Some genius who was guided by the obvious necessties of the place, has started a "Medical Bathis" establishment at Truckee. Three men out of four that I have seen required a Medicated bath very much; but they all prefer whiskey, and there was not a place in the town that looked so much deserted as the Medical Bath-house. The town is built along the stage road, at a point where the railroad and the latter form a junction, and of course hundreds of teamsters pass through it. Gamblers and poison-mills are plenty, and the foolish teamsters find abundant opportunity to part with their earnings. Teaming never was as lively in the mountains as it has been the past three months from Cisco to Virginia, Reese river, Idaho, Utah, etc. Two cents per pound from Cisco to Virginia has been the ruling price. The road has been in splendid order, though the late rains and snow have broken it up and prices will doubtless advance. Last winter they ruled at four to five cents per pound to Virginia. One team of 12 mules lately hauled 33,000 pounds of freight and 3,500 pounds of feed over to Virginia. This load has not often, if ever been beaten.

The railroad company has been hauling large quantities of railroad iron over the summit eastward the past summer, and no delay will be experienced in laying track. The rail used is generally the celebrated fish-joint rail, over which the locomotive glides almost as softly and easily as over velvet.

From the summit eastward powder and nitro-glycerine blasts are constantly being let off. One 18-pound charge of the latter was exploded and awoke the echoes of the mountains with terrific reverberation. It shook houses at Webber lake, some 20 miles northward. From March last until the latter part of October, James Howson has been employed by the railroad company in manufacturing and superintending the use of nitro-glycerine on the road. It was largely used in all the rock tunnels and in the great granite cuttings just east of the summit. But all the latter kind of work is finished and the grading ahead is easy, consequently nitro-glycerine is no longer necessary. About two months ago a report was made to one of the Government Commissioners which showed that up to that time, 180,000 25-pound kegs (4,500,000 pounds in all) of powder had been consumed in blasting—each keg cost full $5 ere it was used. This places the entire cost of powder up to the period named at $900,000. But for nitro-glycerine the cost would have greatly exceeded this. The latter compound is more effectual and cleaner, leaving much less smoke behind. The powder works at Santa Cruz supplied nearly all the powder used on the road. About 1,000 horses and mules are used on it. The feeding and care of these animals is a great task itself. They are all kept in the best of order.

I have heard the amount of money spent monthly by the Central Pacific Railroad Company on this coast to laborers and mechanics in building the road, to employes on it, to the mechanics in company's machine shops at Sacramento, to teamsters, for almost endless supplies, etc., variously estimated at $5000,000 to $800,000 per month. The company employes, I believe, over 8,000 men. The Chinamen are paid $30 per month; the white laborers $35 to $45, and are boarded; mechanics, clerks, etc., are paid $80 to $150. Taking the average wages paid to each at even the very low sum of $50, we get a total of $450,000. Supplies and board for men and horses must cost at least $100,000 more. So that even the lowest estimate will place the company's monthly expenses at $550,000, while I think the actual outlay must be much higher. If the great work was to stop thousands of men would be thrown out of employment, and there would be an unparalleled panic in the labor market on this coast. No able-bodied man is refused work upon the road, and the highest official connected with it is not above granting an interview to and talking with the humblest laborer.

JAMES TINGLE, a miner fell into a reservoir in El Dorado county, last week, and was drowned.

IF a man's wife is well bred, he won't need any but-her.

DUTCH FLAT ENQUIRER.

SATURDAY, DEC. 28, 1867.

STORM.—Since our last the storm has continued up to Thursday afternoon, sweeping everything before it; blowing down trees, fences and outhouses, taking off roofs, chimneys and stove-pipes. On Monday night last as the freight-train was about half a mile from Alta, and in motion, a large tree blew down across the track just in front of the locomotive, and before the train could be stopped the locomotive ran into it, and knocked off two of the cars. Higher up on the road a cave oacurred in a cut partially filling it up, which, however, was speedily removed, in time to allow the down train to pass. The railroad bridge which spans the American river near Sacramento was seriously injured by the high water, taking off one of the abuttments under the brjdge, making it unsafe for the train to pass over. This was obviated by the Company sending a locomotive and cars from Rocklin to take passengers from the bridge, causing but a slight and temporary delay to freight. Colby's Bridge, at Steep Hollow, on the road between this place and You Bet, was washed away; several large trees blew down across the road, but these, we believe, have all been removed, and damage done to the road by the rains been repaired, leaving it in a first-rate condition.

CHRISTMAS TREES.—On Christmas Eve the children of the Union Sunday School had their Christmas tree in the theater. By the kindness of the patrons of the school, the tree was ladened with toys and candies, besides many articles of use and comfort which were placed upon it by the benevolent ladies of our town, making the hearts of the little ones bound with joy and gladness. Truly. "it is more blessed to give than receive," if we are to judge from the heartfelt emotions plainly visible upon the countenances of some who, through misfortune, were in position to challenge the sympathies of the generous. All seemed to have been satisfied on this occasion, a fact we are happy to chronicle, from the scarcity of opportunity heretofore to do so. The amount raised was $91 25, which was chiefly expended for clothing and other substantial articles.

ON Thursday evening the children of the M. E. Sunday school had their Christmas tree in the church, which was also loaded with such articles appropriate for old and young, giving all who attend the school presents as reminders of the good opinion of the teachers and friends of the Church, making them, for the time being happy in the consciousness of having secured the good opinion of those who knew them best.

THANKS.—On Christmas evening we were the recipient of a bowl of egg-nog holding about six gallons. The donor, he of the Orleans Saloon, knowing of our abstemious habits, so far as beverages are concerned, thought to tempt us by the quantity as well as the quality. It is useless for us to say he failed in the attempt, and we don't mean to do it. The contents of the bowl were disposed of the regular way, and we are assured that they were "all our fancy painted." Late in the day, Mayer spread a lunch, composed of ducks, chickens, turkeys, etc., all of which received ample justice at the hands of the frequenters of the house

CALIFORNIA POETS.—Miss Williams, who is at present in this place canvassing for subscribers to this meritorious work will call upon our citizens to-day. No parlor is complete without it, containing, as it does, a collection of the poetical writings of Pollock, Goodman, Ridge, Kendall, Winans, etc., men who made California their homes, and who did more than any others to bring our State up to that standard of polite literature which it now so proudly enjoys. The book contains 415 pages, bound in cloth, with guilt edge. Price, $3 50, delivered immediately.

DURING the late storm the block-mill at Gold Run suffered considerable damage from a large tree being blown down across the mill, crushing the mill and slightly damaging the engine.

THANKS.—Mr. and Mrs. Benton return their sincere thanks to those friends who placed on the Christmas Tree for them, the purse with the three golden double eagles. They feel the more grateful when they remember that the generosity of the donors had just abounded for other if not more worthy recipients.

THE MITES.—The members of this Society had a fine time on Thursday evening last at Eagle Hall. The next meeting will be at Capt. Gardner's, on Tuesday evening, December 31st.

THE "FAT" POSITION.—There is something of a strife over the position of Commissary at the States Prison. The Solano *Press* says a brother of Lieut.-Governor Holden will occupy it while another party thinks P. H. Sibley, of Placer will be the fortunate man. Sibley being a renegade from the Republican party, is entitled to something.—*Trinity Journal.*

Yes; the valiant *Colonel*, who raised a regiment and fought through the war should certainly have an *inside* position in the State Prison.

THE SOCIAL CIRCLE will meet at Mr. Greeley's Tuesday evening, December 31st. All are invited, and those attending will be entertained with music and refreshments.

☞ A HAPPY New year to all our patrons.

PACIFIC RAILROAD.

In another place will be found a petition presented to the Legislature of this State on Friday, 20th instant, by Mr. Hunter, and referred to the Committee on Internal Improvements, from the citizens of Placer, El Dorado and Nevada, counties lying contiguous to the line of the California Central Pacific Railroad, praying for a reduction of the prices of freight and passage to one-third of what is at present charged; and in order to impress upon the minds of the members of the Legislature the justice of granting the prayer of the petitioners they quote a portion of the statement made by the financial agents of the Company at the East inviting propositions for the purchase of the Company's Bonds. They also assert that the county of Placer has given to the Railroad a sum equal to about $650,000. This may be all true enough so far as our county is concerned, but it should be borne in mind that the money paid the road by the county is in conformity with the expressed will of the tax-payers after the proposition had been thoroughly canvassed on both sides, and should not, therefore, figure as an argument at this time. The petitioners failed to state the large amounts received from the road in the way of taxes, not only upon the value of the road itself, rolling stock, etc., but upon property created by reason of the road running through our county, as well as the enhancement of real estate lying upon the line of the road, which alone will swell the amount of revenue of the county to thousands of dollars where it otherwise would have been nothing. The increased value of property in the county of Nevada through a portion of which the road runs, will swell the revenue of that county beyond anything they are compelled to pay in the shape of freight or passage money. Nevada county, we believe, has not paid a dollar in encouragement of the construction of the Pacific Railroad, but is now reaping a harvest from the energy and perseverance of the company, and it ill becomes the citizens of that county to complain of the prices of passage or freight when they are enabled to obtain their freight at much lower rates than formerly, besides bringing the people of the county in almost immediate communication with their correspondents below. The same may be said of the El Dorado people; the petition being, so far as they are concerned, entirely gratuitous; and seems to have been prompted by either ill-will to this truly great and magnificent enterprise, or jealously brought about by their own inaction or inability to compete with the Central Pacific Railway Company.

So far as the getting up of the petition in this county is concerned, we know nothing; it must have been conducted very quietly and the petition only exhibited to such as were known to be unfriendly to the enterprise, for had it been otherwise we should certainly have seen it, but the first we heard of the matter was that a bill was about to be presented based upon a petition to cut down the prices on freight and passage. Looking at this road in the light of a national blessing and one that is destined to create a revolution in trade and commerce; greatly benefit our State; develop the resources of the immense tract of country between the Pacific and Atlantic States; will do more than anything else to extend civilization, humanize mankind and have an unlimited influence toward fraternizing the people of the different sections of our country, we are a friend to the enterprise, and do not think we would be doing our duty to the people of our county or the public at large were we to permit this thing to pass without our solemn protest. Those with whom we have conversed are almost unanimous in condemnation of the move now being made, and many do not hesitate to say that it is a "snap-judgement" attempted to be taken upon them in not submitting the petition to the people of the county boldly. The sentiment of the people now is for the speedy completion of the railroad, and in order that this may be done we should throw no obstacle in its way. The Company have had to contend with more *real* obstacles in the construction of the road than any enterprise ever attempted heretofore; in many places, owing to the treacherous formation of the ground over which it is built, the repairs of the road—owing to caves and slides that it was impossible to have anticipated—have been in many instances as much or more than the original cost when first built; notwithstanding all which, they have by perseverance and the greatest industry succeeded in keeping the road open from one end to the other, with but short and trifling delays. None of us are presumed to be able to battle successfully with the elements; and the Railroad Company should be no exception to this rule; yet, notwithstanding, they have, considering the accidents—caused by the action of the elements—continued their labors to an extent surprising to all who have not allowed their judgment to be swayed by a foolish and unjust prejudice. It seems wrong to us, now that the Company have need of all the encouragement possible to complete their road to the junction of the Union Pacific Railroad, and to this end will be obliged to throw their bonds into market, that their enemies should be permitted to cripple their resources and retard the work. For as we reduce their prices on freight and passage, just in proportion do we lessen their capacity to raise money in the East for the final and speedy construction of the work. No one will pretend to say that Eastern or foreign capitalists will pay as much for the bonds of this road if we curtail its receipts one-third! The idea is preposterous. The Company need to show an exhibit, based upon *facts*, of the receipts of the road as will induce moneyed men to become interested, and this can only be done by "letting them alone." Should the Legislature elect to pass the bill based upon the petition, we hope we will hear no croaking about the progress of the work in future. Our people are anxious to be considered as progressive, in ideas, business, and everything appertaining to the affairs of life, yet, as soon as a few energetic men outstrip the sluggards, then is a howl raised to keep them back! This should not be. In point of industry, indomitable perseverance and princely generosity to all worthy objects, the California Central Pacific Railroad Company stand at the head, and for this, if for nothing else, they should be fostered and encouraged by the people.

COLD COMFORT.—Poor, Godforsaken and party repudiated Andrew Johnson! None so poor as to do him reverence. When a man gets so low down that a demagogical democrat paper such as the New York *World*, dares make such a fling at him, he must be pretty well gone. The *World* says:

"A man might as wisely think to improve his social standing by living with somebody's repudiated wife, as for the Democratic party to expect any advantage from adopting in the last days of his unsuccessful administration, a fettered President elected by their enemies and popular with nobody."

THIS enterprising patron of the "art preservative" has again remembered us with a large bundle of Eastern dailies, weeklies, pictorials and magazines received per last steamer, for which we are duly thankful. He is agent for all respectable journals in the Atlantic States and Europe, and is prepared to furnish any of them to subscribers on the Pacific coast at publisher's rates.

TERRIBLE CONDITION OF THE MOUNTAIN ROADS.—The Virginia *Enterprise*, of December 6th, says: In another place in to day's issue we mention the horrible state of the roads between Cisco and Crystal Peak. Since writing the item referred to, we have conversed with a friend who arrived in the city last evening from Cisco. He came through with a team of fourteen mules, attached to a single wagon loaded with ten thousand pounds of freight, and was fourteen and a half days on the road—in fact it will be more than that before his team arrives in this city, as he left it yesterday at the Truckee Meadows, and came in on the Fast Freight wagon. He stayed three nights in succession at Chamberlin's Station, and after working hard all day had progressed but half a mile. He says that three teams that were traveling in Company made so little progress that their owners put up for nine consecutive nights, at one house in Russell Valley. In places as many as fifty teams were to be seen at one time where the road was blockaded by mired teams. In pulling out these wagons, 30 mules were sometimes used, and often two or three span of mules were used to pull out one span that were mired down. Even men mired down, and had to have assistance to get upon terra firma. In short, the roads are nearly impassable even for empty wagons.

THE good looking "imp" of this establishment requests to say that he will visit his patrons on Wednesday morning, when he hopes to find them provided with "change."

PACIFIC RAILROAD.—On Friday the 20th, Mr. Hunter presented in the Legislature the following, which was read and referred to the Committee on Internal Improvements:

To the honorable the Senate and Assembly of the State of California: The undersigned citizens of Placer, El Dorado and Nevada counties, living contiguous to and almost wholly dependent upon the Central Pacific Railroad of California for freighting and travel, would most respectfully represent to your honorable bodies that the rates of freight and passage on said railroad, are most exorbitant, oppressive, and out of all due proportion to the services rendered and expense incurred by the railroad company. Further, your petitioners, residents of Placer county, would most respectfully represent that we have given to said railroad company a sum equal to about one-sixth the value of the entire property of the county, to-wit; 650,000, to aid in the construction of the said railroad through our county, and that under the oppressive taxation caused by our liberality to said railroad company, and the company refusing to pay a dollar of tax on their property in our county, we are illy able to pay these exorbitant charges of freight and passage to this illiberal and grasping corporation.

That your honorable bodies may be fully satisfied that one-third of the present rates of freight and passage would be abundantly remunerative to the company, considering that the construction of the road has not and will not cost them a dollar of their own money, we hereby embody in this petition an extract from an authoritative statement of the company by its financial agents, for the sale of its first mortgage bonds in the East, to-wit:

"The Central Pacific Railroad enjoys all the privileges, grants and subsidies conferred by the acts of Congress upon the other parts of the through line, and has, in addition, several special exclusive advantages applicable only to the western half.

"1. The company receives from the State and chief cities of California assistance in money, credit, and valuable property worth over $3,000,000 in gold, in addition to the full benefit of the Government subsidy.

"2. The hardest and costliest part of its construction has been successfully overcome within the first one hundred and fifty miles. In a few weeks the track will be completed entirely across the Sierra Nevadas, after which progress to Salt Lake will be easy and rapid.

"3. The local business alone of this road establishes its complete financial success, independent of the vast through traffic which must pass over it. The gross earnings for the months of June and July, upon the ninety-four miles then open for business, were upward of $297,000 in gold, of which four-fifths were net earnings.

"4. It can have no competition, but will carry besides its own lucrative local traffic, the whole volume of through business which is shared among its eastern connections and their branches.

"5. The road lies wholly in territory yielding the precious metals, and its revenues are collected in coin. Its rates for transportation are very advantageous, being more than three times those of roads lying east of it; and the ratio of operating expenses is less than twenty-two per cent. of the gross earnings.

"6. In consequence of the aid it receives from the General Government, and from the State of California, and from municipal corporations, the annual interest obligations which the company are called upon to assume are very light. The net earnings upon an average of about seventy-five miles, in 1866, were nearly three times the amount of annual interest liabilities to be assumed in building it, and were $2 5,000 more than the annual interest on the entire amount of first mortgage bonds which the company can issue on the first one hundred and fifty miles.

FISK & HATCH,
"Bankers, and dealers in Government Securities, Financial Agents of the C. P. R. R Co., No. 5, Nassau street, New York."

In view of these facts, and innumerable others unnecessary here to mention, your petitioners pray that your honorable bodies pass a law reducing and fixing the rates of fare and freight on the said Central Pacific Railroad to one-third the present tariff rates charged. And your petitioners, as in duty bound, will ever pray, etc.

PAINFUL ACCIDENT.—On Tuesday last whilst Louis Porte was assisting in repairing the ditch above this place, and was in the act of raising a board when one of the hands who was likewise engaged in the work, attempted to draw an ax up, and in doing so the ax came in contact with Porte's hand, inflicting a severe wound, nearly severing his thumb from his hand. Dr. Nelson was called and sewed the thumb on; but it will be sometime before the man can resume his labors.

SIGNIFICANT.—The Marysville *Appeal* gave an extended notice of the robbery which occurred on the late excursion train to the Summit which the Chico *Courant* copies and then says "it was the Legislative excursion train, and had aboard the defeated Democratic candidates for legislative positions, and this being the case no surprise need be manifested at the above incident."

HOSTETTER'S

CELEBRATED

STOMACH BITTERS

A PURE AND POWERFUL TONIC

Corrective and Alterative. Of WONDERFUL EFFICACY in Diseases of the

STOMACH, LIVER AND BOWELS

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves, and tends to prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent fevers, Spasams, sea sickness, cramps and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or

PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits and Fits of Lanquor find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventative and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—NEWS

SPECIAL MEDICAL NOTICE.—DR. CHARES H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street next door to the Occidental Hotel, San Francisco. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, next door to the Occidental Hotel, San Francisco.

RESOLVENT.

One Bottle of Resolvent Better than Ten Large Bottles of Sarsaparilla.

One Bottle will Purify the Blood, and Expel Corruption from the Body!

So swift is this remedy in entering into the circulation, that its has been detected in the blood and urine in six minutes after it has been taken.

☞ 1 BETTER THAN 10

R R R. Resolvent cures with astonishing rapidity every form of Chronic, Scrofulous and Skin Diseases, and exterminates all corruption from the human system.

One bottle of Dr. Radway's Renovating Resolvent contains more of the active curative principles of the best Jamaica Sarsaparilla, (Sarsaparillian,) than Ten of the largest size bottles of the mixture sold under the name of Sarsaparilla.

The process adopted by Dr. Radway in securing extracts (prepared in vacuo) of Medicinal Roots, Plants, Herbs, and other vegetables possessing great curative properties over Scrofula, Chronic, Syphilic and skin diseases, that enters into the composition of the Renovating Resolvent, produces only ONE OUNCE of the pure extract out of 20 lbs of crude roots. The inert matter that enters so generally in the large bottle mixtures and prepared under the officinal or pharmacopeia formula, is, by Dr. Radway's process, cast aside as rubbish.

One teaspoonful of the Resolvent is sufficient for a dose for all Skin, Salt Rheum, Pimples, Blotches, Sores and Eruptions of the Skin, Humors in the Blood, &c.

One teaspoonful, three times a day, will, in a few days, make the Blood pure, the Skin clear, the Eye bright, the Complexion smooth and transparent, the Hair strong, and remove all Sores, Pimples, Blotches, Pustules, Tetters, Cankers, &c., from the Head, Face, Neck, Mouth and Skin. It is pleasant to take, and the dose is small.

The first dose that is taken seizes on the disease and commences its work of resolving away all diseased deposits, Purifying the Blood, and driving corruption from the system.

The Renovating Resolvent, if used in any of the following named complaints, will positively cure the patient:

Skin Diseases, Caries of the Bones, Humors in the Blood, Constitutional, Chronic and Scrofulous Diseases, Scrofula, Syphilis, Fever, Ulcers, Sores, Salt Rheum, Erysipelas, Rickets, Scald Head, Cankers, Sore Legs, White Swellings, Glandular Swellings, Boils, Nodes, Sore Ears, Sore Eyes, Strumous Discharges from the Ear, Opthalmia, Itch, Constitutional Debility, Skin Eruptions, Wasting and Decay of the Body, Pimples and Blotches, Tumors, Cancerous Affections, Dyspepsia, Water Brash, Neuralgia, Chronic Rheumatism and Gout, Diseases of the Kidneys, Bladder, Urethra, Strictures, Difficulty of Passing Water, Calculous Deposits &c.

ALARMING INCREASE OF BLADDER, KIDNEY and CALCULOUS DISEASES.

The annual reports of the Health Commissioners of different cities, show a great increase of deaths from diseases of the Kidneys and Urinary Organs—RADWAY'S RENOVATING RESOLVENT is the only remedy *that has dissolved* calculous concretion.

Its SOLVENT, *diuretic, lithontriptic* and *tonic* properties exceed that of any medicine in the world; it readily assimilates with the fluids, and promotes their exit through the Kidneys, Urethra and Bladder, removing calculous obstructions, and correcting all derangements of these organs.

So swift is the remedy in passing into the circulation, that it has been detected in the urine in six minutes after it has been taken; by adding to the liquid when cold a few pieces of starch, then a few drops of nitric acid, the liquid will change to a blue color. When brick dust, or a thick white deposit, like the white of an egg, (albumen,) is detected in the vessel, or bloody discharges from the urethra, or micturating in drops, accompanied by a burning or scalding pain—the RESOLVENT should be used and R. R. RELIEF rubbed on the spine, &c.

RADWAY'S PILLS being an aperient, soothing, and tonic laxative, are the only purgative medicine safe to administer in these difficulties; their mild soothing and healing properties produce evacuations without irritating the mucous membranes of the bowels, kidneys, ureter, bladder, &c., or causing straining when at stool.

Price of Resolvent, $1 per bottle, or 6 for $5. Pills 25 cts. R. R. Relief, 50 cts. per bottle. Principal Depot, 87 Maiden Lane, N. Y. Sold by all Druggists and Country Merchants.

REDINGTON & O.'S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease."

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y.

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy frend.
ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D ANDREWS,
Superintendent Soldiers' Home,
Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our private stamp is UNMUTILATED over every cork.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs,

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No other article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

MEXICAN
MUSTANG
LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, SWELLINGS,
FRESH CUTS OR WOUNDS,

Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

WHAT'S TRUMPS?

There are so many cards to play,
So many ways to choose,
In love, in politics and war.
To forward well our views
With ladies fair, with statesmen wise,
Or men of smaller bumps,
Before we lead our strongest suit
'Tis well to know what's trumps.

Once, worshiping at beauty's shrine,
I knelt in bondage sweet,
And breathed my vows with eagerness,
And offered, at her feet,
A heart well stored with Cupid's wealth,
A love-demented lump;
A kind of diamonds won the trick—
My heart was not a trump.

Enraged to see my rival win
Upon a single rub,
As he had played the deuce with me,
I followed with a club!
Two days within the station house,
Reflecting on my sin,
I found, as others may have found,
Clubs very seldom win.

Grown wise by sad experience
I ceased to deal with maids;
I shuffled useless follies off,
And turned up jack o' spades.
But still I find, as dust is scarce
And smaller grow the lumps,
Although the spade's an honest card,
It is not always trumps.

But, in this world of outward show,
Where Mammon rules the throng,
To ease the little joints of life
And smoothly pass along,
You'll find an antidote for care
And stern misfortune's bumps,
In *diamonds*—which are sure to win,
For they are always trumps.

A LEGEND OF THE GREAT EASTERN.—There is a wild sort of legion in connection with the Great Eastern steamship, the origin of which I do not know, but the shipwrights firmly believe in it. So much has been written about the construction of this famous vessel, that the slightest allusion to it here will suffice. She is a ship with two cases, or skins, as they are called—that is, she is almost like one ship fitted inside another. Between the inner and outer skins the workmen can crawl for repairs. Dreadfully dark and sepulchral, of course, it is in there, for, from the nature of the space, the workman must be completely closed in, excepting at the spot at which he enters. Very few smiths or shipwrights would care to work in here alone, for two terrible spectres are supposed to haunt the place. Almost all the men who were engaged in the construction of the vessel believe that, somewhere there in the darkness and thick air, lie two skeletons, which can never be found till the vessel is broken up. These are the remains of a smith and his riveter, the latter being a lad. During the construction of this vessel these two worked all through the week, keeping full time, and their work lay in between the skins. The smith was an elderly man, of a moody temper, who made no friends, and was not popular with his mates. No one had seen him leave his work; nobody was interested about him. But one pay-day both he and his lad had failed to appear at the pay-table to draw their money. They never were heard of more by any one who worked on the Great Eastern. Of course their absence was noticed by the timekeeper and other officials; but the missing men being, as I have said, unpopular with their comrades, there had been but little inquiry about them until it was found that their money was not claimed. It was then soon noted that the last time they had been seen they were at work in the "case" of the ship, and before long it became a fixed notion that by a fall, or by the effect of some vapor, the two men had been killed or stunned until closed in, and all the host of men who worked at the great ship believed that somewhere in the vast hulk there lay two skeletons, which, for some reason, could never be found; the prosaic idea that the old fellow and his helper had left without warning for a better job finding, of course, no favor.

GREAT NATIONAL CURIOSITY.—The *Sentinel*, published at Jacksonville, Oregon, of the 12th ult., says: "Several of our citizens returned last week from a visit to the Great Sunken Lake, situated, in Cascade Mountains, about 75 miles north-east from Jacksonville. This lake rivals the famous valley of Sinbad the sailor. It is thought to average 2,000 feet down to the water all round; the walls almost perpendicular, running down into the water, and leaving no beach. The depth of the water is unknown, and its surface is smooth and unruffled, as it lies so far below the surface of the mountain that the air currents do not affect it. Its length is estimated at twelve miles, and its breadth at ten. No living man ever has, and probably never will be able to reach the water's edge. It lies silent, still and mysterious in the bosom of the "everlasting hills," like a huge well, scooped out by the hands of the giant genii of the mountains, in unknown ages gone by, and around it the primeval forests watch and ward are keeping. The visiting party fired a rifle several times into the water, at an angle of forty-five degrees, and were able to note several seconds of time from the report of the gun until the ball struck the water. Such seems incredible, but is vouched for by some of our most reliable citizens. The lake is certainly a most remarkable curiosity."

WEED, GREELEY, ETC.—A Washington dispatch to the Philadelphia *Press* says: The chief topic of political gossip here now is a reported reconciliation of differences between Thurlew Weed, Horace Greeley, and other New York politicians, for the purpose of securing the Republican nomination for Vice President, to that State. It is conceded beyond doubt that Gen. Grant will receive the nomination of the Republicans for President, and it is expected by the New York Republicans that they will be able to place either Senator Morgan or Governor Fenton on the ticket with him. In the meantime Greeley and his friends will undoubtedly insist on the nomination of Judge Chase, but, failing in that, will be obliged to content themselves with a compromise on either Morgan or Fenton for the Vice Presidency on the Grant ticket. This programme will be aided by the new paper of Chas. A. Dana, among the stockholders of which are Senators Morgan and Conkling, Marshall O. Roberts, Mayor Opdyke and others, who are not inclined to favor Chase.

THEORY.—Professor Newton, of Yale College has a theory of immense proportions touching the meteoric displays. He affirms that the meteoric stream is 5,000 miles thick, 11,000,000,000 miles long, and of unknown breadth, and that in the thickest portion of the stream the individual meteors are 25 miles apart. This stream runs around an elipse once in 33 years, and the displays occur at the ends of these periods.

ILLINOIS is a very wealthy State, and the Auditor General reports that for 1867 the value of its neat cattle is $17,144,597; sheep, $3,510,877; hogs, $5,321,551; manufactured articles, $3,240,536, and bank stock $2,270,326. Total, $32,378,788. The value of horses in the State foots up more than all combined, the figures being $33,578,224.

THE New York excise liquor law has diminished the liquor shops of that city from 9,250 to 6,250, and stopped the sale of intoxicating fluids at the groceries. The number of arrests on Sundays has decreased one-half And yet the Democrats denounce it as interfering with "civil and religious liberty" to get drunk on Sunday.

FATAL ACCIDENT AT BANGOR.—A fatal accident happened at the mining shaft of Kendall & Boyle, at Bangor, on the 14th inst. Thomas Daly, while adjusting a car upon the track, slipped and fell backwards to the bottom of the shaft, 72 feet deep, and was killed. The deceased was a native of Ireland, 32 years of age and single.

SACRAMENTO SAVINGS BANK.—The following is a statement of the business of the Sacramento Savings Bank from April 18th to December 18th: Total amount of deposits received, $232,461 65; amount of deposits repaid, $71,692 60; amount of loans, $171,780; interest received, $7,853; number of depositors, 378.

A CARD FROM THE AMERICAN WATCH COMPANY
Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: Europesn are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attemptep repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enam eled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS,
AND
HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, fiental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates billious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London,

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets, to

108 MONTGOMERY STREET,

Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years, with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

☞ All letters strictly confidential. Address, through mail or address,

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable, failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pains, buess of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhœa, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.
